DETAILED ACTION

Response to Amendment

1. This action is responsive to the Amendment filed on 28 September 2007. Claims 1-23, 27, 28, and 42-46 have been cancelled. Claims 24, 29, 30, and 38 have been amended. Claims 24-26 and 29-41 are pending in the application.

Response to Arguments

2. Applicant's arguments, see pages 10 through 12, filed 28 September 2007, with respect to claims 24-26 and 29-41 have been fully considered and are persuasive. The rejections/objections of claims 24-26 and 29-41 have been withdrawn. Independent claims 24 and 38 have been amended to include allowable subject matter as cited in the previous action. Therefore claims 24 and 38, along with all claims depending from them, are now allowable over the prior art.

Allowable Subject Matter

3. Claims 24-26 and 29-41 are allowed.

4. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of these claims is the inclusion of the limitation whereat lest one of the plurality of pairs of regions is a transmissive pair for transmitting optical signals with wavelengths within a prescribed wavelength pass band, the remaining pairs of regions being reflective pairs for reflecting optical signals with wavelength within a prescribed wavelength stop band containing the pass band. The prior art does not

appear to teach or suggest this claimed limitation in combination with each of the other limitations of the claimed integrated optical device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
